- Shape: Bulb
- Voltage: 220-240 V
- Wattage: 16 W
- Wattage standard bulb: 75 W

871150066267510

# Highlights

## Carbon footprint

Energy savers reduce the amount of energy in your home, which not only results in a lower energy bill, but also in less carbon (CO<sub>2</sub>) output by your energy supplier. Together we make this a better world to live in.

## Energy efficient

All Philips energy savers save energy from the moment you turn the switch. During their lifetime they use less Kw and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

## Reliable quality

Philips keeps their promises about lamp performance. You can trust what the Philips packaging is saying about light output, lifetime, and wattage equivalent to incandescent lamps.

## Warm light

Philips lamps are available in Warm White (2700K), which is comparable with incandescent. The temperature of a lamp is measured in Kelvin (K).
